PROFILE

Frontend-focused Software Developer with 3+ years of practical experience building responsive web applications and digital products using React, Next.js, TypeScript and JavaScript. Experienced across UI development, reusable components, REST API integration, databases, debugging and remote collaboration. Combines product thinking with hands-on full-stack capability to turn requirements into maintainable, user-focused software.

TECHNICAL SKILLS

Frontend	TypeScript · JavaScript · React · Next.js · HTML5 · CSS3 · Tailwind CSS · Responsive Design
Backend & Data	Node.js · Express.js · REST APIs · JSON · MongoDB · MySQL
Development	Reusable Components · API Integration · Debugging · Performance · Git · GitHub · Technical Documentation
Web & Tools	SEO Fundamentals · WordPress · Elementor · Figma · Microsoft 365 · Google Workspace · AI-assisted development

PROFESSIONAL EXPERIENCE

Freelance Software Developer

2023 – Present

Remote

- Design and develop responsive web applications and digital products using React, Next.js, TypeScript, JavaScript and Tailwind CSS.
- Build reusable UI components, application workflows and REST API integrations across frontend and full-stack projects.
- Work with MySQL and MongoDB-backed applications, troubleshoot defects, refine interfaces and support ongoing product improvements.
- Collaborate remotely with clients and developers, translating requirements into practical technical solutions and documentation.

Frontend Developer

Apr 2026 – Present · Previous: Jul 2024 – Mar 2025

CraftDuka Digital · Remote

- Develop responsive interfaces using React, Next.js, TypeScript, JavaScript and Tailwind CSS.
- Build reusable components, integrate APIs and troubleshoot frontend issues with attention to usability and maintainability.
- Work collaboratively through Git/GitHub in a remote development environment.

Resident Software Engineer

2022 – May 2023

Adamur

- Developed and maintained software features using JavaScript, Node.js and Express.js.
- Built REST API functionality and worked with MongoDB-backed applications.
- Debugged application issues, supported testing and used Git within collaborative software development workflows.

SELECTED PROJECTS

Canisvilla

[Next.js](#) · [React](#) · [TypeScript](#) · [Tailwind](#) · [APIs](#) · [MySQL](#)

Dog-focused social platform with profiles, feeds, groups, events and community workflows. Focused on responsive UI, reusable components, API integration and database-backed features.
